

BLACKMOON

SECURITY CAPABILITIES AND POLICY FOR TRANSMISSION OF PAYMENT

1. WHAT INFORMATION DO WE COLLECT AND HOW DO WE USE IT?

The information collected during a Credit Card deposit is your name, address, email address, phone number, and credit card details. This allow Blackmoon VF Ltd (“BMC”) to process and fulfill your transactions successfully.

2. HOW DOES BMC PROTECT CUSTOMER INFORMATION?

When you place orders, we use a secure server. The secure server software (SSL) encrypts all information you input before it is sent to us.

Furthermore, all of the sensitive customer data we collect is protected by several layers of encryption and several layers of security to prevent unauthorized access.

3. CREDIT CARD DETAILS

All credit card payments are processed securely through our payment provider using a Hosted Payment page. By purchasing a software API key we do not store any credit card information on our

servers. This service seamlessly redirects the cardholder from the merchant’s website to a separate and secure webpage where the customer enters their confidential, sensitive payment data.

4. PAYMENT GATEWAY INFO

Our payment options presently available are limited but, most importantly, safe and secure. Credit Card payments are made using Hosted Checkout through our payment provider. None of your payment details are stored – this ensures you will be happy with the security of your transaction.

5. WHAT ABOUT COOKIES

“Cookies” are small data files that are stored by your browser on your computer’s hard drive. Our cookies do not contain any personally identifying information. They allow you to place your online order and to login once you are registered. Most Web browsers automatically accept cookies, but you can usually change your browser to prevent that. You will need cookies enabled to our website.

6. YOUR CONSENT

By using our website, you consent to our T&C’s. If we decide to change our Security Capabilities & Policy for Transmission of Payment, we will post those changes here so that you are always aware of what information we collect, how we use it, and under what circumstances we disclose it.
